Office Action Summary

The preliminary amendment of 11/4/02 has been entered. The amendment canceled claims 39-70 and 86-115.

Claims in the application are 1-38 and 71-85.

Election/Restriction

5 Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-38, drawn to a method of patterning a surface, classified in class 435, subclass 174.

10 II. Claims 71-85, drawn to a deformable stamp, classified in class 435, subclass 283.1.

The inventions are distinct, each from the other because:

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either:
(1) the process as claimed can be practiced by another materially
15 different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the deformable stamp of Group II can be used in a materially different method. For example, the stamp can be used in a method where contact of the stamp with a substrate results from placing
20 the stamp by hand in contact with the substrate, and not by modulating dimensions of the stamp as required by the method of Group I.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as
25 indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M. Naff whose telephone number is (703) 308-0520. The examiner can normally be reached on Monday-Thursday and every other Friday from about 8:30 AM to about 6:00 PM.
